HR205

HR205 Units controlled by a single Trickle/Boost Switch.

HR205 Units controlled by multiple Trickle/Boost Switches.

HR204

HR204 Units controlled by a single Trickle/Boost Switch.

HR204 Units controlled by multiple Trickle/Boost Switches.

Electrical Wiring Regulations (BS 7671:2001 The IEE Wiring Regulations)

In accordance with the above new wiring regulations as from 31 March 2006 all electrical cable identification will change, please note below for future consideration:

Single-phase

Fixed installation colours of red and black are to be replaced by brown and blue, respectively. The protective conductor is still identified by green-and-yellow.
