

# THE FACTS

**5x**  
Indoor air can be 5x more polluted than outdoor air

**90%**  
of our lives are spend indoors

**9000 litres**  
We breathe 9000 litres of indoor air each day

## CAUSES OF POOR INDOOR AIR QUALITY

Poor Indoor Air = Poor Health

**Drying Laundry**  
Drying washing indoors adds to moisture build up and mould growth

**VOC's**  
Paints and aerosols release VOC's (Volatile Organic Compounds) in the air

**Woodburners**  
Wood burning stoves release particles into the air that you can breath in

**Bathrooms**  
Mould forms in the bathroom caused by excess moisture build up

**Pets & furnishings**  
New furniture releases chemicals, carpets harbour dirt and pet hair causes allergies

**Cooking & gas cookers**  
Cooking with gas releases chemicals into the air. Cooking in general generates excess moisture leading to mould growth
